Unveiling of the 2026 FEFFS poster

The 19th Strasbourg European Fantastic Film Festival will be held from Friday 25 September to Sunday 4 October.

After a very successful festival in 2025, with 22 000 thousand viewers in cinemas and a global attendance of 30 000, we hope that even more of you will be with us this year to celebrate the best that genre has to offer.

Signed by the artist Mahon, it draws its inspiration from the festival's main retrospective, dedicated to artificial intelligences, and which pays tribute to Stanley Kubrick's benchmark film *2001: A Space Odyssey*.

On the 2026 bill: new international productions of both fantastic feature and short films with the filmmakers in attendance; vintage classics on the silver screen; master classes; off-site events; industry meeting days, and the Festival Village in the heart of Strasbourg.

@mahon_macia

The first slate of films in the official selection will be announced in August. The entire programme will be available with the kickoff of the city's cultural season in September.

Look out for the first details on this 19th edition coming soon to strasbourgfestival.com and [@fantasticstras](https://twitter.com/fantasticstras).
